## **Highly Successful “School of Fab” to Continue with Monthly Episodes**

*Mobile Solutions and Car Audio Fabrication will team up on tooling, techniques and top builds*

**TEMPE, ARIZ., August 30, 2021 (MEDIAWIRE)** – Mobile Solutions® announced it has expanded its agreement with Car Audio Fabrication to co-produce School of Fab, a video show centered on fabrication tools, tips and techniques for automotive aftermarket professionals. School of Fab will be presented live the first Thursday of each month on the School of Fab Facebook page.

Car Audio Fabrication (CAF) is a popular YouTube channel intended for car audio professionals and enthusiasts. Videos feature innovative, hands-on fabrication techniques from Mark, its enthusiastic host. The channel boasts more than a half-million subscribers and is approaching 400 videos.

Bryan Schmitt is founder and lead instructor of Mobile Solutions, which produces fabrication-centric tooling and products and has provided in-house professional instruction to more than 10,000 technicians and fabricators. Mobile Solutions has a worldwide footprint, with professional training and product distribution training in 18 countries.

Mark and Bryan kicked off the first episode of School of Fab August 5th to an industrywide audience, showcasing live, unique router techniques and reviewing recent vehicle builds. The pair also made the first official announcement of MasterTech Expo, Mobile Solutions’ first tradeshow-sized training event and product exhibition, to be held March 6-9 at the Mesa Convention Center in Mesa, Ariz. School of Fab will be a significant component of MasterTech Expo, comprising four classes in a specialized certificate course.

“With CAF attracting new car audio enthusiasts and Mobile Solutions training top-tier professionals, the partnership for this live show lets us reach every level of custom fabrication,” said Mark. “Our differing backgrounds and expertise lead to an interesting dynamic on the show that results in a clear and powerful presentation for the viewer.”

“Mark is a highly respected fabricator and excellent presenter who has provided invaluable benefit to our students and the industry overall,” added Bryan. “We are thrilled to continue this partnership with him and CAF for the School of Fab live series, and look forward to co-instructing classes at MasterTech Expo in front of eager and enthusiastic attendees.”

The second episode of School of Fab airs September 2 at 8PM CST. For more information on School of Fab, please visit [Schooloffab.com](https://www.schooloffab.com). To attend MasterTech Expo, register at [mastertechexpo.com](https://www.mastertechexpo.com).
